see of the Conference—What the Alliance Men Domand. TOPEKA, Kan., March 27 .- The con ference of county presidents of the Farmers' Alliance, after a two day's sea-sion, adjourned last night. Among the most important demands agreed upon was that for immediate relief from the usury law, and a strong protest against alien ownership of land. A resolution was passed declaring it to be the sense of the Alliance that it was not conducive to the best interests of the people to call a special session of the Legislature, in-asmuch as no relief can be had by the

nactment of a redemption law.

The Alliance declares in favor of a constitutional convention; relief can be had only by a constitution of the peo-ple, for the people and by the people of the State.

The Kansas Senators and Representatives in Congress are urged to sup-port a measure similar to the Stanford bill, which provides for loaning money to farmers on real estate security instead of having to secure the same through National banks; that the State should secure the Government and the counties should secure the State. It was also resolved that the Government should expend the surplus and place it in the

hands of the people where it belongs.

One of the objects expected to be accomplished is the building of a double track railway from Colorado to some point east of the Mississippi river, with a view to its final construction to the Atlantic seaboard and the Gulf of Mexico. The cost of constructing this road should be made the basis on which fares and freight rates on all other roads shall be based. The Alliance invites the co-operation of all other organizations in carrying out the objects of these reso-

The Kansas Congressional delegation is censured for proposing impracticable legislation in behalf of the old soldiers. A resolution was adopted requesting President Clover to appoint a member from each Alliance district to look after the interests of the farmers.

The State organizer reported 2,000 Alliances in the State, and new ones being organized so fast that it is almost impossible to keep track of them. There are over 100,000 members in the State to-day. The business of the State Exchange was reported as very satisfactory, supplies being purchased for all the sub-alliances in the State.

BETTER SERVICE WANTED.

A Complaint as to the Train Service on a Branch of the Missouri Pacific Road. Topeka, Kan., March 27.—A complaint formulated by a committee ap-pointed by the Topeka Board of Trade against the Missouri Pacific railroad for the poor train service maintained on the K., N. & D. has been filed with the Board of Railroad Commissioners. It recites the fact that the railroad at present occupies nearly two miles of the public streets of Topeka and that the right of way thus granted is of great value to the corporation, and a lasting burden to the citizens who gave it, expecting that the railroad would benefit the city; that General John Ritchie conveyed to the railroad company ten acres of land for terminal facilities valued at \$30,000, under the agreement that the road would maintain a suitable passenger and freight depot; that afterwards the line was leased to the Missouri Pacific, which had operated it for the past two years; that Shawnee County voted \$75,while the city gave it right of way through the streets free. These grants entitle the patrons of the road to good train service and depot facilities the Commissioners are requested to order the Missouri Pacific to furnish

Two Engines and Ten Cars Go to Smash on the Central Branch. tral Branch freight trains collided while running at a high rate of speed a mile west of Centralia Tuesday evening. Engineers John Steele and Eugene Clark, both of this city, together with their firemen, jumped and were uninjured. The engines dashed together and ten freight cars piled up on top of them, making a very bad wreck. Both the engines are in a very dilapidated condition and must be entirely rebuilt. Only four of the freight cars were loaded and they were all the property of other roads. The collision was due to the failure of the telegraph operator at Corning to notify the west bound train to sidetrack at Centralia for the east bound train, which was an extra-There is no truth in the rumor that several hundred sheep were killed in the wreck. The accident was unfortunate for the road, which is crowded with business and in need of many more engines than it now possesses.

To Establish Iron Works. STAUNTON, Va., March 27.—Major George Orisman, Jacob Wissler and Mr. Prince, representing the Farmers' Alliance of the United States, have concluded to establish Alliance agricultural works at Iron Gate, Alleghany County, Va. The works will employ from 350 to 500 hands and their products will go to every sub-alliance in the country, representing 4,000,000 people.

To Go to Harvard.

LAWRENCE, Kan., March 27.—Professor William Macdonald, dean of the music department of the State University, has resigned his position and will leave the institution at the end of the college year. He has been here nearly six years. He will take special work at Harvard University in philosophy and literature for four years.

Mexican Matters.

CITY OF MEXICO, VIA GALVESTON, March 27.—The passenger agents were received by President Diaz this afteroon, and in the evening Minister Ryan held a reception in their honor. The party will leave here on Wednesday. Finance Minister Dublan has made a contract with Mr. Relph for the estab-

lishment of a bank at Monterey. Ground has been broken and work will be pushed on the Chamela railroad un-

der the Esteva concession.

A large portion of Tianguistengo, in-cluding the town hall, containing valu-able old archives, has been destroyed by fire. Four lives were lost.

The Siberian Exiles.

LONDON, March 27.—The Daily News publishes extracts from letters recently received by Russian refugees in Switzer-land giving details of the fight at Irkutsk between exiles and troops. The trial of the survivors is also described. As a result of the trial three of the prisoners were sentenced to be hanged and others to serve various terms of impris-onment. The sentences were slightly modified by the Czar. Solow and Gaus-man, who were finally put to death, would not allow the hangman to touch them. They adjusted the nooses them-selves and died most heroically.

ANOTHER CREVASSE.

Bad Lovee Break Seventy Miles Above Vicksburg, Miss. Vicksburg, Miss., March 27.—The levee in front of Skipwith, Issaquenna County, Miss., about seventy miles above Vicksburg, broke at one o'clock yesterday morning and at night the crevasse was said to be 400 feet wide and cutting rapidly, while the water in the town was up to the eaves of the houses and people were reported as swimming for their lives.

The water from the crevasse will flood an immense tract of country south and east of it, embracing part of Issa-quenna County, Sharkey south of Roll-ing Fork and all of Warren County north of the Yazoo river.

Superintendent Sharp, of the Mississippi railroad, said he believed the riverside division of the road would be flooded six miles west of Rolling Fork, thus cutting Greenville off entirely, but that by raising the track at Katzmair he thought the main line would be safe. Other eminent authorities say the main line, which is only ten or twelve miles from the crevasse, will be flooded and trains stopped in less than forty-eight hours, though the water may not cross Deer creek, where the banks are very

A great number of fine plantations will be flooded—in fact none but the highest lands on Deer creek and the river front can escape south of a line drawn from Skipwith to Rolling Fork. D. Mayer & Son, the largest planters to the valley except the Richardsons, have chartered the steamers Elliott and Sar-gent to bring down their stock from Mayersville. Both vessels left about noon yesterday.

As usual the crevasse was entirely unexpected, there having been no unfavor-able reports from Skipwith since the high water began.

SHOT IN THE STREET.

The Superintendent of a New York Street Car Line Shot By a Discharged Driver. Long Island City, N. Y., March 27.— In broad daylight and in the busiest thoroughfare of this city, while scores of people were passing along Borden avenue, near the ferry, John Ronan, an ex-driver on the Fourth avenue horse railroad in New York, shot Alfred D. Moulton, general superintendent of the Steinway & Hunter's Point railroad, the bullet entering Mr. Moulton's back at the left shoulder blade. The wound is believed to be mortal, the bullet passing around the ribs and lodging in the muscles just under the left nipple. The wounded man was conveyed to his home

at 112 Lexington avenue, New York. Ronan was caught by Police Sergeant Roulette just as he was preparing to fire a second time at Mr. Moulton, whom he had followed into the middle of the street. Its was taken to the Second precinct station house where a 32-caliber revolver, new and of the latest pattern, was taken from him. He gave his address as 647 West Forty-seventh street. On his way to the station house Ronan said to Captain Woods: "That man has hounded me and my family for eight years. He killed my son and has driven me crazy. I used to drive a car for him when he was a conductor on the Fourth avenue road."

Mr. Moulton while being taken from the scene of the shooting stated that when he was assistant superintendent of the Fourth avenue road he discharged Ronan, who was a driver on the road. and that the latter had had a grudge against him ever since.

THE WAGE SYSTEM.

Election Cases.

WASHINGTON, March 27.-The House Committee on Elections has disposed of two contested election cases, Posey vs. Bowen vs. Buchanan, Ninth Virginia seat, so that in the seven election cases passed upon by it up to the present time the committee has favored four Republicans and three Democrats. Probably before the end of the week decisions will be reached in the Ala-bama case of McDuffie vs. Turpin and the Virginia case of Waddell vs. Wise.

Sheriff Flack. New York, March 27.—The Mail and Express says: "From an official source it was learned late this afternoon that sheriff Flack is fast breaking down, mentally as well as physically. From the same source it was learned definite-ly that the sheriff will positively resign his official position despite the reports to the contrary. He may reserve his decision on this point until Friday next, decision on this point until Friday next, when the motion to set aside the verdict rendered on Sunday morning will be made and argued. But his mind is made up to tender his resignation as soon as circumstances permit."

CHEROKEE DEMANDS.

The Commission Listens to the Views of Mayes and Bushyhead. WASHINGTON, March 26.—The mem-

bers of the Cherokee Commission met yesterday at the Indian Bureau and leard the statements from the representatives of the Cherokee and the other Indian tribes in the Indian Territory. Among those who appeared be-fore the Commission was Chief Mayes and ex-Chief Bushyhead, of the Cherokee Nation. Several propositions were submitted to the Commission and it was stated by them if these propositions could be made the basis of agreement, the Cherokees would consent to a cession

Chief Mayes' propositions to the Commission are substantially as follows: First-That the Government shall fulfill its obligation to evict from the Cherokee Nation all persons not de-clared by the Nation itself to be citizens
